CLINICAL PHARMACOLOGY RESEARCH is published every two months by BIOSCIENCE EDIPRINT. The annual subscription is US$136 + postage.

All correspondence regarding subscriptions should be addressed to the Business Office in Geneva.

Manuscripts and further editorial correspondence should be addressed to the Publishing Editor, Clinical Pharmacology Research, BIOSCIENCE EDIPRINT, Rue Winkelried 8, 1211 Geneva 1, Switzerland.

Clinical Pharmacology Research has been designed to facilitate the rapid publication and diffusion of research results in the field of clinical pharmacology. It fulfils the important function of gathering in one publication new information on clinical and pharmacological investigations, new drugs, new methods for drug evaluation and therapeutic trials, and news regarding pharmacokinetics, clinical pharmacy, biopharmacy, medical bioengineering, statistics, clinical toxicology and therapeutic systems.

Review articles are frequently invited and summaries on important topics appear regularly.

Some numbers of the journal will include proceedings of meetings and congresses in the field of clinical pharmacology and drug therapy.

Clinical Pharmacology Research is the official journal of the ITALIAN SOCIETY OF CLINICAL PHARMACOLOGY. Authors preparing papers in the field of the Journal are kindly invited to submit their manuscripts. *Instructions to Authors* are published on the inside back cover of this issue.
